Tuesday, Jan 17

! TIL

Include a *very brief* summary of what you learnt in this class here.

Today, I learnt the following concepts in class:

1. Reading files into a csv
2. dplyr
3. ggplot2

Provide more concrete details here. You can also use footnotes¹ if you like

- We created a fake dataset and learned how to read a csv file like the dataset into r.
- We also learned about what makes a dataset clean and what properties a clean dataset looks like.
- We then talked about some different datasets that are prebuilt into R.
- We finished by talking about graphing utilities like ggplot2.

¹You can include some footnotes here
